PROFESSIONAL PROFILE

Front-End Developer and Front-End Instructor with hands-on experience in JavaScript, React.js, and modern web technologies. Skilled in building responsive, user-focused interfaces, mentoring within a team, and contributing to real-world project delivery. Open to learning new technologies and continuously strengthening professional skills through practical projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, SCSS, Bootstrap CSS, JavaScript, TypeScript, React.js, React Redux

Design / Methodology: Responsive Design, UI component development

Tools: Git, GitHub

Other: Teamwork, mentoring, code review, task management

WORK EXPERIENCE

Front-End Developer — M.I.T Development Center 05/06/2026 – Present

- Developing projects based on React.js and TypeScript, and improving existing components.
- Actively participating in the GitLab-based team workflow (branching strategy, Merge Requests).
- Mentoring developers and conducting code reviews; managing tasks through Trello.

Front-End Instructor — IT Litseyi 09/20/2025 – 05/20/2026

- Teaching students the fundamentals of HTML, CSS, and JavaScript, as well as modern web development with React.js.
- Preparing course materials and developing students' skills through hands-on assignments.
- Additionally taught Python for a 3-month period.

Front-End Instructor, Mentor — Vision Academy 10/09/2025 – 03/05/2026

- Delivered hands-on training through real projects, supporting students' development through applied technologies.
- Supported students in reaching a professional level through code review and feedback.

Front-End Developer (Intern) — KhanButa Group 02/28/2024 – 07/28/2024

- Worked on real projects as part of the Front-End Developer internship program.
- Built functional web pages through the practical application of modern technologies (HTML, CSS, JavaScript, React.js).
